CALL FOR PARTICIPATION

We would like to invite you to Bangkok to join us for the 2006 IEEE International Conference on Field-Programmable Technology (FPT 06). FPT is a fast growing conference on field-programmable technologies, including complex programmable logic devices and systems containing such components.

This year's FPT sees a program of three full days, comprising of 2 keynote talks, 31 lectures and 43 posters on topics related to the tools, architecture and applications of field programmable technology.

* The full conference program is now up at: www.icfpt2006.org/program.php

Confirmed Keynotes

* "Closing the Gap between FPGAs and ASICs"
  Prof. Jonathan Rose, ECE Department of Toronto University

* "Applications of programmable logic in modern particle physics experiments"
  Prof. Geoff Hall, Physics Department of Imperial College London
Registration Information

Author registration deadline: 4 September 2006
Early registration deadline: 15 October 2006

Registrations can be made on-line via www.icfpt2006.org/regist.php

A special discounted registration fee is available to students, IEEE members and to those who register before 15 September 2006.

Xilinx Professors’ Workshop

In association with the conference, a Xilinx University Program Professors’ Workshop will be conducted on 11-12 December 2006. This workshop is free to all conference participants. Please register for the conference to book your place.

We hope you would be able to join us in Bangkok.
